North Coast Singers

This year, San Diego North Coast Singers will provide choral music instruction for over 300 singers in the Encinitas area, including our main campus location with four choirs serving 100 singers and our school outreach program serving 200 youth. Founded in 1993 by Artistic Director Sally Dean, the San Diego North Coast Singers has provided quality instruction in vocal and musical development for over 25 years. Our singers regularly perform with the La Jolla Symphony and Chorus, and this season has been invited to join the San Diego State University Department of Music and Dance in performances of Leonard Bernstein's MASS. The advanced choirs have toured the world, including performances in Italy, Austria, the Czech Republic, and Cuba, along with domestic performances at choral festivals in Colorado, New York, West Virginia, and regularly throughout Southern California.
